CAMPUS CAPSULE

Certificate programme

Bilcare Research Academy is set to begin from February a specially designed short-duration Certificate Programme in Clinical Research for working professionals. Admissions are now open at Bilcare's Bangalore branch.

The six-month weekend programme is spread over 24 weekends with four-hour classes. At the end of the programme, participants will receive certificates.

Working professionals from clinical research organisations, pharmaceutical, biotechnology and allied industries, doctors, hospital interns and fresh graduates may apply. Students appearing for final examinations may also apply.

Santosh Hegde, President, Bilcare Research Academy, said, "This course will benefit working professionals from clinical research organisations and pharmaceutical industries."

Participants will have opportunities to observe clinical trial operations carried out at the research wing of Bangalore Diabetes Hospital on real-time basis. Personality development modules will be offered by soft skills trainers.

For admission inquiries and counselling, visit the Banga-

lore branch between 9 a.m. and 8 p.m., call 1800 209 1002, visit www.bilcareacademy.com, or send an email to direct@bilcareacademy.com
