Bilcare starts Certificate Program in Clinical Research for working professionals

Program spread over 24 weekends, of 4 hours duration each

Bengaluru, January 6, 2009: Bilcare Research Academy is set to commence a specially designed new short duration 'Certificate Program in Clinical Research' for working professionals. Admissions are now open at Bilcare Research Academy, Bengaluru and the course commences from February 2009.

The Certificate Program in Clinical Research (CPCR) is six months weekend program designed with a vision to create competent Clinical Research Professionals. Spread over 24 weekends, of duration four hours a day on Saturdays and Sundays, the course offers flexibility to participants, while the content will be comprehensive and detailed. At the end of the program, participants will receive Certificates from 'Bilcare Research Academy', which holds immense value and significant recognition in the Clinical Research Organisations, Pharmaceutical industries and Biotechnology industries.

Working professionals from Clinical Research Organizations; Pharmaceutical, Biotechnology, and Allied industries; Practicing Doctors; Hospital Interns and Fresh Graduates from the following disciplines are eligible: Medicine (M.B.B.S / B.H.M.S / B.A.M.S); Dentistry (B.D.S / M.D.S); Pharmacy (B.Pharm / M.Pharm); Veterinary Sciences (B.V.Sc. / M.V.Sc.); Life Sciences; Physiotherapy and Nursing. Students appearing for final examinations from all these disciplines can also apply for the program.

Santosh Hegde, President, Bilcare Research Academy said, "This short duration course is carefully designed by experienced clinical research professionals for individuals who wish to enter this professional stream. It will immensely benefit working professionals from Clinical Research Organizations and Pharmaceutical industries in Bengaluru to hone their skills and expertise with the course's application based study approach.

"Bilcare is very well renowned and a reputed corporate in Clinical Supplies business spread across the U.S. and Europe. We thus want to leverage this prospect of sharing our knowledge and years of experience & understanding with working professionals with this course. To develop these individuals we use a broad curriculum including classroom training which is further enriched with valuable inputs from the industry. The emphasis is on all round personality development", said Santosh Hegde.

Bilcare Research Academy is equipped with World Class Infrastructure, State of the Art classrooms, well stocked Library, Wi-Fi connectivity and Video Conferencing facility, making it at par with International standards. Participants will benefit by highly experienced and ACRP credited faculty (Association of Clinical research Professionals, USA), by means of advanced video conferences and web-seminars from industry experts. Participants will also have opportunities to observe the Clinical
